now considerably larger than a man's hand, and threatens to grow to still more formidable dimensions. The revolution effected by ruler of Korea, cannot be regarded, we fear, in any other light than as an anti-foreign demonstration. The Japanese being the only foreigners present in Korea at the time, were the victims, after the Ministry who had agreed to open the ports to foreign trade. Altogether nine Japanese were murdered at Seoul and Ninsen, and the usurper Day In Kun is, so far as can be judged, responsible for these atrocities. Japan has good cause to demand satisfaction, and no power has a right to attempt to interpose between her and the violent men who by their acts and counsel plunged Korea into anarchy and incited the mob at Seoul to murder and outrage. If the Japanese Government can settle the matter without landing an army and engaging in a war so much the better, but if, through the obstinacy of the Koreans. the Japanese are driven to harsh measures three hundred troops and a couple of mening members of his suite at Seoul, and to tronage. demand satisfaction for the assassinations

THE JAPANESH AND CHINESE IN orders to their fleet to protect the monarchy TINNESIN. 11th August. A most important communication in the form war-ships to Corea for the same benevolent of a despatch to the compander of the U.S. cor- object; or at least that they have been prompted vette Monocacy at Chofor from the United by sympathy to interfere in Corea about matters States Legation at Peking, passed through this which not one of them would dare to do in Euplace yesterday; and doubtless that war-vessel rope, under the circumstances of there being no will have in consequence proceeded to Cores, be- European or American subjects whose lives are fore this letter reaches Shanghai. Before con- endangered by the Corsan native insurrection.sidering the motives that have induced the "ORIENS," in N. C. Daily News. United States Government's representative in China at the present juncture to order the Monocacy to the Cornan coast, and before endenvouring to foresco the consequences of -auch a step, it is necessary to look back at the events, which have taken place regarding Gorea during the last few months, so that a complete IN LONDON .--view may be obtained of the origin of the actual political situation and the issues involved in it According to an article from the Japan Mail which was inserted in the North-China Daily Nows about a week ago, "the interval between sight On Parts.—

the visit of the Duke of Gonoa and the mission of Commodore Shufeldt, was the period to which may be ascribed the active interference of the Chinese Government in the Corean peninsula, as manifested by the autograph letter of Li Hungohang, published about that time: in which Russia and Japan were explicitly charged with aggressive designs on Core, and which recommended treaty relations with America, England, and France as an antidote to the same." This assertion or supposition of the distinguished Chinese statesman whose letter has been brought before the public as a justification for the present policy of China towards Gorea is a baseless hypothesis manufactured for the purpose of exciling enmity between China and Russia and Japan, and also for creating evil feeling between Cores and the above mentioned powers. One can hardly believe that In Hung chang ever wrote such a letter containing grave gratuitous accusations against Russia and Japan, as his accurate political information must have told him that they were unfounded; but whether the letter be authentic or no, it has certainly served the purpose for which its pu lication was inloaded, and it is time that the truth of the mat-

tor should be made known:-Now I can and do unbesitatingly declare, that during the last twelve years not a single Russian vessel or ship of war has ever visited a Coreanport, and moreover that during these last twelve years the Russian Government has never either directly or indirectly had any political or other communication with the Corean Government upon any subject whatever, and has never durion that period made any attempt at aggression on Corean territory, and much less has present. ed any ultimatum to the Corean Government or any proposal for obtaining possession of either Port Lazareff or any other port on the Corean coast. Any assertion therefore such as has appeared in the apocryphal letter of Li Hang-chang, or in the China and Japan newspapers, attributing aggressive designs on Corea to Russis, is absolutely false, and I defy any one to bring proof of the contrary. As regards Japan's policy towards Corea; without endorsing or disavowing the aggressive designs also laid at her door, and without the clear proof that there has been no pressure employed to coerce Carea into dependence on Japan, it can at least be said that Japan in her relations with Corea has only followed in the wake of western nations in forcing her relations on Corea, just as America, England, France and other Powers , have done in opening China and Japan to foreign commerce and diplomatic intercourse; and that before an ultimate condemnation of Japan's conduct towards Corea is recorded, an indefinite number of chapters in the history of America. England, and other powers with China and Japan must be obliterated from memory. And now to turn to the present moment. Cores

under some influence or other has caused the Japanese Ambassador and his suite to floo for the safety of their lives, and has even killed several Japanese citizens who were rightfully residing there under taris of a properly concluded treaty. What would be the line of action of any European Power towards Corea if the government of that country had treated an Ambassador, any of Germany or the United States, in such a manner? and what right would any other foreign power have to interfere in sun! violation of international right and amity as that which has lately occurred in Corea? except, perhaps, by endeavouring to rge Corea to make ample satisfaction for g ch hn outrage; and even then, only according to Japan's estimate of compensation due to her for the insult perpe-China of course with her presumed suzersin rights over Corea, might, if these rights are

distinctly clear, do something towards appearing the wounded Japanese honour; or if guided by unwise counsels might add to the flames of discord by backing up Cores in the first proof that country has given of her appreciation of treaties with foreign powers by deliberately breaking off intercourse with Japan by violence and murder. China has taken a step towards Cores, and it remains to be seen with what intentions. The Chinese Government, as soon as the knowledge of the Japanese trouble in Corea reached this place, telegraphed to His Excellency Ma (the former plenipotentiary in Corea) who was at Shaughai, to proceed immedistely to Chefoo, whither the two ironelad monitors and a gunboat were despatched to meet him; and this force proceeded to Corea a few days ago with Ma at its head. Rumour here says that China has sent this force to protect Cores, and to impede Japanese troops from landing there. Other Chinese gunboats are to follow as soon as they have completed their preparations at Port Arthur, and in a week or so a Chinese. squadron will be on the Corean coast facing the

The duty of Japan is clear,-viz., to promptly obtain reparation for the grievous insult she has sustained; and the only way this is to be done is evidently by force of arms. We hear by telegraph that a Japanese expedition has already gone to Corea, and that the Japanese mann fighting or obtaining satisfaction. Should China unwisely commit any hostilities against Japan, war between the two countries will be the result, and should the burning animosity which exists between them break forth, it will doubtless embitter and prolong the contest to the detriment of both nations and to the harm of all foreign commerce. But that the United States Government should make warlike demonstration in Corean waters at such a critical moment is incomprehensible, except in the case that there are American citizens in Corea to protect; and every one knows that BAN HUP, Esq. Yo v Chone Pane Esq. this is not the fact. The only apparent motive in the Monocacy going to Corea is to back up the Chinese auti-Japanese influence in Coren; and

corvette to the troubled waters. America gets the credit of supporting China Shareholders or not. in the Corean-Japanese difficulty, and naturally the conduct of Commodore Shufeldt as the pioneer of the establishment of China suzerainty right over Corea has given rise to the opinion that a great Power like America, which submits to being made use of in substantiating a dubious question like Corea's dependence CTANDARD FIRE OFFICE, LONDON on China, is also ready to serve in defending the consequential results of such supposed dependence; were it only out of regard for AGENTS to the above Company at this Port, are political consistency. What is to prevent in prepared to GRANT POLICIES against FIRE such case the other Powers from giving their to the extent of \$40,000 on Buildings or on countenance to Japan as they ought to do under Goods stored therein, the violation of international obligations of which Japan is the present victim, and of which any other Power may be the sufferer before long? Tongkopp, lat March, 1978. Is the present cloud in the east a harbinger of more extended complications? There have been nothing but mistakes committed ab initio in this Corean affair. Leaving aside the personal yearning of the American Commodore to open Corea by plac- AGENTS to the above Company at this Port and ing the United States as the first western Canton, are prepared to GRANT POLICIES nation admitted there, how can it be reconciled against FIRE to the extent of \$20,000 on Buildwith national self-respect that certain great ings or on Goods stored therein. WHISKIES are shipped only by RICHARD MATHEWS & COMPANY, of London and Inverness, who are sole possessors of the Brand "CARLTON." They are distilled from the finest Highland Malt only, are in every respect equal to the best Cognac Brandy, and guaranteed to be entirely free from Fusil Oil or other notions impurities. The following Letter has been received from the Secretary of the "CARLTON" CLUB. CARLTON CLUB. Dec. 20, 1875.

Messrs. R. MATHEWS & Co. GENTLEMEN,—In reply to your inquiry as to whether the Whiskey you are supplying to this Club is approved by the Members, the best answer I can give is that the consumption of this Whiskov in the Club has GREATLY INCREASED since it has been supplied by your firm. There can be no doubt whatever about the Whiskey being MOST EXCEL-LENT. It is Old and Soft, and I may safely say that it is much approved by the Members. Yours obediently, W. GRIFFIN SUTTON,

CAUTION: It has come to the knowledge of the Shippers of the "CARLTON" -WHISKIES, that the empty Bottles have been dishonestly refilled. with the poisonous trash very often sold in China bider the name of Whiskey, this is therefore to caution consumers to CAREFULLY EXAMINE the CORKS and CAPSULES to see they have not been tampered with; also that the Corks, Capsules, and Labels are branded with their Trade Mark.

For Prices and Terms, apply, to CUTLER, PALMER & Co., Agents for China. Shippers: RICHARD MATHEWS & Co.. "CARLTON" WHISKRY Merchants, London.
